Furnace Spare Parts Solutions

With more than 60 years of expertise in furnaces, Heurtey Petrochem Solutions knows the importance of safety, smooth operation and maintenance of delivered furnaces. This is the reason why Heurtey Petrochem Solutions is strongly involved in the Spare Parts market and is regularly consulted for supplying any spare part: from gaskets or single burner tips to fully modularized radiant coils or convection section.

With more than
3,500
furnaces engineered and fabricated since 1953, Heurtey Petrochem Solutions has the Largest Number of Furnaces References in the World

BENEFITS

- Dedicated Spare Parts team, flexible and agile, focused on clients constraints (time schedule, technical issues...)
- Proximity to clients based on Heurtey Petrochem Solutions local and regional presence
- Largest reference list & relevant archives allowing efficient and accurate manufacturing of spare parts
- Full support of in-house engineering specialists
- Ability to supply furnace and reformer parts worldwide regardless of OEM

Heurtey Petrochem Solutions added value relies on:

› In depth knowledge of client's equipment

- **Spare Parts Lists** supplied with the furnace allow easy identification of the parts onsite,
- Based on Heurtey Petrochem Solutions **experience, the dedicated spare parts team** checks the suitability of any requested material,
- Capability to **check and offer adequate alternatives**, when original supplied goods are no longer available (ex: instrumentation).

› Capacity to Guarantee Quality

- **Global Procurement with a large data base** of approved international suppliers,
- Heurtey Petrochem Solutions dedicated **Quality Control Staff** follows fabrication from ITP up to IRN, including shop visits,
- **Assistance of Engineering specialists** for specific needs (issuance of drawings, calculation notes).

› Dedicated Spare Parts team

- Any **critical schedule** to be strictly enforced especially in case of shutdowns or site emergencies,
- **Specific regulations and specifications** to be followed or implemented (P.E.D for instance),
- **Full services supply**, up to logistics issues, transport to site, certification of the shipping documents, upon request.

> Complete burners or burners' parts

> Cast supports, intermediate tube sheets, cast fittings, observation doors...

Some examples of regularly supplied items

> Pressure parts including bare, finned or studded pipes, fittings, flanges... supplied separately or in prefabricated hairpins, pigtails, manifolds

> Instruments (thermocouples, actuators, thermowells, analysers...)

> Fans & Sootblowers spares
